

K- Largo

The K Largo is a combination of the speed of the Tempo, functionality of the Tango Angler and manoeuvrability of the Disco. This is our ultimate fishing kayak for river, lake and sea. Extremely stable, lots of leg room and working space, efficient, the K Largo has a sleek designed hull to eliminate hull slap, ample storage, a well thought out deck with equipment trays.

K Largo can be equipped with additional facilities as electric motor or side floats.
